## RESEARCH TOPIC INFORMATION

Graduation Project Question (big idea):

are too many kids is being pushed to attend college?

I will need to answer these questions to determine the answer to my GP Question (small ideas):

Do kids have to go to college + be successful.  
Is colleges overvaluing

My rationale for choosing this topic:

It's because some people are good without  
college.

This topic will be a learning stretch for me because:

It got to do with research and no records.

PARENT STATEMENT

Parent/Guardian: Please describe why you think the Research Topic your son or daughter has chosen is appropriate for him or her. What does he or she already know about the topic? How will this research build on or create new knowledge for your child?

The topic my son has chosen is appropriate for him, because we have discussed the many different reasons why college is a great choice to pursue in life. Choosing this topic will show him the different statistics of ~~going to~~ attending college compared to not attending. My son already know that alot of young people are attending college more now then they have in the past. I hope it will show him how important getting a good education during high school will lead to a good college experience,
